STATINTL

MEMORANDUM FOR:

VIAL

Deputy Director for Processing

PROM:

Bruce T. Johnson

Director of Data Processing

SUBJECT:

Computer Systems Plan, FY 82-84

George:

I have just finished reading the Computer Systems Plan for FY 82-34 for which I know you are responsible. Let me say for the record that I found it an absolutely first class piece of work; literate, readable, understandable to the non-technician, and in all ways a credit to you, Engineering, and Processing.

STATINTL

to ensure that copies I bave asked get to all of the members of the ODP Board of Directors and I intend to have the report and its clear indication of our technical direction on the agenda for a senior management conference which we are planning for February.

Thank you for this further evidence of the thoroughly professional way in which you handle your share of the Cop burden.

/s/ Bruce T. Johnson
